

TOWN OF AFTON

DRIVEWAY ACCESS PROGRAM

2013

The Town of Afton will coordinate the removal of snow from a **portion** of a qualifying private residential driveway that is in the street right-of-way. This policy applies to qualified residents that sign up and register with the Town.

Program Guidelines

The Public Works Department shall coordinate the removal of snow from the portion of a **qualifying** private residential driveway within the established street right-of-way (end of driveway) so long as the the following conditions exist:

1. Measured snow accumulation on the portion of the driveway within the street right-of-way is found to exceed six (6") inches in depth, and
2. Town snow removal operations have created a berm on the portion of the driveway within the street right-of-way, and
3. Snow accumulation on the the portion of the driveway within the street right-of-way prevents access to and from the residence.

Public Works will commence with snow removal for qualifying residents upon the completion of all snow removal operations in the Town.

Qualifying for the program

In order to qualify for this program a resident of Afton must be aged 70 or older. All other residents can qualify by certifying a medical condition or disability that would limit their ability to perform snow removal on the portion of the private residential driveway within the established street right-of-way (end of driveway).

Residents seeking participation in this program shall request a Driveway Access Program application by mail or in person. A copy of valid government issued identification shall also be required for enrollment in the program. Residents seeking enrollment in the program on the basis of a medical condition shall furnish a letter from a physician stating their limited or impaired ability to remove snow.

Upon approval and inclusion in the Driveway Access Program, the Town of Afton shall place the qualifying residence on rotation for snow removal, only on the portion of the driveway that falls in the street right-of-way (end of driveway). The following conditions must be met before such snow removal takes place for qualifying private residences:

1. Measured snow accumulation on the portion of the driveway within the street right-of-way is found to exceed six (6") inches in depth, and
2. Town snow removal operations have created a berm on the portion of the driveway within the street right-of-way, and
3. Snow accumulation on the the portion of the driveway within the street right-of-way prevents access to and from the residence.

The Applicant agrees to indemnify the Town of Afton for any and all costs associated with damages incurred to private property while plowing the portion of the driveway in the street right-of-way.

By signing this application for the Driveway Access Program, applicant certifies that he/she is over the age of 70 or that he/she has a medical condition that limits or impairs their ability to remove snow. If applying on the basis of a medical condition, applicant shall furnish a letter from a physician certifying their need for this program.
